Inherent limitations

Because of the inherent limitations of any compliance measures, as documented in the compliance plan, it is possible that fraud, error, or non-compliance with laws and regulations may occur and not be detected. An audit is not designed to detect all weaknesses in a compliance plan and the measures in the plan, as an audit is not performed continuously throughout the financial year and the audit procedures performed on the compliance plan and measures are undertaken on a test basis.

Any projection of the evaluation of the compliance plan to future periods is subject to the risk that the compliance measures in the plan may become inadequate because of changes in conditions or circumstances, or that the degree of compliance with them may deteriorate.

The audit opinion expressed in this report has been formed on the above basis.

Independence and quality control

In conducting our audit, we have complied with the independence and other relevant ethical requirements relating to assurance engagements and apply Auditing Standard ASQC 1 *Quality Control for Firms that Perform Audits and Reviews of Financial Reports and Other Financial Information, and Other Assurance Engagements*.
